FIGURE ON FIRE.

Fire Running at a Feriam Rate.

Ja LESHURG, Cal., March 29. Sparks from an engine on the Union Pacific Rallread, set the prairie on ire, about eight o'clock, last evening. The wind is blowing at a furious rate and the fire is running fast.

Farm Houses Burned

of Rew Hampshire.
CONCORD, N. H., March 29. The annual report of the State Superintendent of Public Instruction, Just Issued, shows 232 towns, having 258 districts, with 2,335 public schools, with an average attendance of 42,096° pupils and 305° male and 2839 femile teachers. The entire revenue last year from all sources was 6794,433.85 and expenditures \$870,533.33. Of the latter, the principal items. were n new building; \$106,631.63; fuel, repairs, etc., \$169.385.77; teachers salaries, \$9712,217.99; increase in enrollment, 382, which is attributed to the free text book jaw. This increase would have been greater had not 1,198 pupils gone into private, mostly parochial schools, during the year; number attending private schools is 8,348. The public schools of the State are reported in a prosperous and generally satisfactory condition.

MASSAUH USETTS REGISLATION Hill Heported by the Liquor Com-Bostos, March 89. Liquer Committee, Reade, of the Senate, and Sa livan, of the House, dissenting, reported a bill, to-day, that ne license for the sale of intoxicating inquora shall be granted to be exercised in any building, place or tenement in which groceries or provisions are kept or sold at retail, by license or any other person. Club; true to their name, they stand in vincible.

Our samual fair, held November nine-teenth and twentleth, was a financial success, erabling us to keep the rooms that have become endeared to us by memory and asbotation. We were well patronized, and the fine entertainment under the direction of Mrs. M. E. Jeonard was mos satisfactory. Our apron table was quite unique as so many States and citles were represented by the gift of an apron from some dear sister or friend of the temperance work.

some dear sister or them of the temperance work.

"The poor ve have alway with you, and whatever is done for them is work done for the Master." In this direction we do all that is possible for us to do with our limited means. We have given out two hundred articles of clothing, besides what we gave at the Christmas tree. Many of these articles were given us for this purpose, and we always see they are wisely bestowed."

One feature of our work is a source of

I was a sufferer from entarth for fifteen years, with distressing pala over my eyes. I used kly's Cream Balm with gratifying results. Am apparently cured. — Warren, Rutland, Vt.

I suffered from a severe cold in my head for months and could get no relief. Was advised to use kly's Cream Balm. It has worked like magio in its cure. I sum free from my cold after using the Balm one week, and I believe it is the best remedy known.—Samuel J. Harris, Wholesale Groer. I 19 Front St., New York.

REV. WM. HOLLINSHED.

Pastor of the Presbyterian church of Bparta, N.J., voluntarily without strongly in favor of thood's Skrashardin. He says "Nothing I know of will cleaned the stomest." I have to favore the liver or clean the stomest. Who have been I eliped or cured by it.

The highest braise has been wen by Theod's Rills for their easy yet of clean the feditor.

The Notona States Convention was held at Attached the liver or clean the stomest. The Notona is all over the State were given the work of the meeting pleasant, and around the convention while linear or clean the stomest. The Natona (Convention was held at Attached the meeting pleasant, and around the convention while heave were given the factor.

Here is a practical illustration of the beneficial effects of the tariff clup-trap talk of the free traders.

The Bangor Commercial is so constituted that it thinks that if It attributes some of he campaign yarns to "a prominent Republican" it gives to them the semblance of reliability. It only shows the studidity of the editor, however. There has not been a campaign in recent years that it has not attempted this little 100 SHARES piece of deception, but the trick is so transparent that the people only laugh at the performance. The talk about the Harbor Master illustrates the point n question. One would think, if not familiar with the weakness on the part of the Commercial, that the Republicans were fairly tumbling over each other in their eagerness to carry reports to that paper This attempt to pose as sort of a general repository of party matters, Republica as well as Democratic, is rendered particulary amusing from the fact that it is an open secret in this community that an outcast in his own party, to say nothing about the Republicans. It is only a few weeks since he was ousted from a position as chairman of the Democratic City Committee, or rather was From tee Largest and Best Stook forced to withdraw because he found that he would be thrown over if he allowed his name to be used. The doors have been locked against him time and again when he wanted to go to the National Convention, and this year it is openly asserted that if his ambition to go to Chicago is gratified be will have to secure his election through the country delegates, as the Bangor delegation will be opposed to him. Por Ribs. In view of these facts such articles u that in last evening appaper only makes it appear ellly. SEN.TE RATIFIES

The Arbitration Treaty-Cabinet Agrees to Salisbury's Proposal

WASHINGTON, March 29 It is under washington, march 20 it is given at the meeting to-day practically agreed to accept 1 crd Salisbury's proposition for the renewal of last year's mocus vivendi, with certain limitations as to the character of days nges, to be left to the determination of the arbitrators Senete Ratifice the Arbitration Trenty

The two hours spent in executive session by the Senate to-day sufficed to complete the consideration of the Behring sea arbitration trenty and it was ratified by an unanimous vote. The debate was without incident

The formal assent of Lord Shitsbury came in a cablegram this morning.

The same procedure was followed in the case of the second amendment, which changes article H of the treaty to require the arbitrators to make a decision if possible within four months, instead of three, from the close of the arguments of counsel.

Mrs. Millon Crosley, of "springfield, formerly of Portland, will conduct an other Furging and the procedure of the cross arrived here.

other Furopean tour the coming summer Flis time two trips have been arranged, one of 42 days and the dother of twice that been much weakened yesterday, completely disappeared as a result of Misheman's explanation to-day and when the question was taken on the resolution of ratification there were no mays. The year numbered 72—an unusually large vote in the Senate A resolution actifying the President of the action of the Senate was also passed.

CITY REPORTS. IN NO MAN'S LA VD.

Two shapes were walking on the strand One starilt night in no man a land Bapert of Seard of Park Commis Two shapes that during earthly life \$ Gave hate for hate in deadly strife They met Swift forth their falchions flew; Each pinned the other through and through Yet neither fell Again they strove For mastery and madly drove

> To right and left their faichlons bright. Nor sound nor cry profaned the night. Through corselet casque and visor too, As through he air their swift plades flow Until amazed they stood aghast And on the sands their weapons cast Then laughed they both at mortal strife The passing dream of earthly life And clasping each the other's hand.
> They walk the shades of no man s land
> -James Clarence Harvey in Academy A. Electric Equine George E Genton, who resides on In diana avenue, has discovered an electric

horse Benton stepped from a street car at Wahash and Eighteenth street while the horses were being trotted. He placed his hand on the flank of one of the animals a bay mare, and received a tremendous shock. The .ar was at tached to a table train and sped onward. After it bad gone a block Benton re-After it had gone a block Benton re-turned and experienced a succession of slight shocks which gradually died away as the mare became cooler from standing. Benton then had the mare trotted up and down the street for ten minutes. The came back in a fam and was taken at once to the damp ground. A dozen men then formed bands, first A dozen men men formed mans, may wetting the soles of their shoes thor oughly in the horse trough As Benton put his han is on the mane every man distinctly felt the shock Now one man let go at a time shonted Benton, and they did so the shock intensifying as such may fell out such that that, when as each mar fell out so that at last, when

> Mr Benton sent the mare trotting again and meantime climbed a lamp post Another in in climbed after him and caught hold of his hand. He clasped and caught hold of his hand. He clasped the post firmly with his legs and gave his discogated hand to a third man, who in turn place I his band on the mares flank. Birton turned on the gas jet and put his it lex higer on the nozzle of the jet. It stantly a series of sparks flashed through the living chain from the excited horse and the gas blazed up. Benton was so exhausted by this last experiment that he had to be taken down from the hirty post. The 'manager of a dime muse in his offered a large sum to the company for the privilege of exto the company for the pravilege of ex hibiting the horse —Chicago Cor. Kansas City Times

the number was reduced to three, the next man cried out "Some of you fellers cate; hold again I car t stand

With the modern elevator almost anv speed desired can be obtained at all de speed desired can be obtained at all depends on the power used and the distance trave ed. In a building which has a shaft of 200 feet a speed of from 850 to 1 000 feet a minute can be obtained. On 1 000 feet a minute can be obtained. On a rige of 1 0 feet it is easy to get a speed of '750 feet per minute with a weight of 1 000 pounds aboard the elevator. In New York the fastest elevators are in the Union Trust company so hi ding on Broadway near Wall street. They shoot up or down carrying 3,000 pounds at a speed of 000 feet an mute. When tested with lighter weights they have traveled from 800 to 900 feet in a minute. But the average speed of elevators in

But the average speed of elevators in office buildings in and around New York is 300 feet a minute. It is best adapted for work, and experience has demon-strated that more passengers can be car ried daily in a car going at that speed in the ordinary large building than any other. The increase in the size of ele-vators is it keeping with improvement. in other directions - Chicago Johnnal of
